

TEKSON®

GLOVES

TEKSON BLUE

Protective gloves, coated with blue, rough latex up to half a hand. The glove has polyester liner, which perfectly fits to the hand. Very elastic. Finished with a soft welt. They are perfect for all kinds of mechanical work. Colour white and blue.

EN ISO 21420:2020; CAT II; EN 388:2019 3141X

Packing unit:
12/240 pairs

Size:
8, 9, 10

TEKSON BLACK

Protective gloves made from polyester, coated with black polyurethane, finished with welt. Seamless, very elastic. The gloves perfectly fits to the hand's shape. The polyurethane finish ensures good grip in both dry and damp conditions.

EN ISO 21420:2020; CAT II; EN 388:2019 4131X

Packing unit:
12/240 pairs

Size:
7, 8, 9, 10, 11

TEKSON BLACK BLISTER

For those who appreciate effective shelf presentation, we have created special packaging. Thanks to the Euro hanger, the customer will easily notice the product on the display, making the purchase even more convenient. The elegant blister also serves as a security feature against accidental opening, keeping the gloves fastened.

EN 388 4131X, CAT II, EN 420

Packing unit:
12/240 pair

Size:
7, 8, 9, 10, 11

TEKSON PRACTICAL

American cut premium goat leather gloves for maximum durability. Featuring an elastic jersey back and a secure Velcro closure, these gloves offer a perfect, snug fit that stays in place. The single-piece leather palm ensures superior grip and exceptional manual dexterity, making them ideal for precision tasks.

EN ISO 21420:2020; CAT II; EN 388:2019 2122X

Packing unit:
12/120 cardboard

Size:
8, 9, 10, 11

TEKSON COMFORT

Short work gloves, known as driver gloves, are made of full-grain goat leather, providing durability and comfort. They feature an elastic band on the back of the wrist for a better fit, and the cuff is finished with binding. The gloves comply with the EN 388 standard, confirming their mechanical resistance and wearing comfort. A top choice for technicians, drivers, and installers.

EN ISO 21420:2020; CAT II; EN 388:2019 2122X

Packing unit:
12/120 cardboard

Size:
9, 10

TEKSON SOLID

American cut premium goat leather gloves, with an elastic jersey back and an integrated band, offer a perfect, snug fit that stays in place. The single-piece leather palm ensures superior grip and exceptional manual dexterity, making them ideal for precision tasks.

EN ISO 21420:2020; CAT II; EN 388:2019 2122X

Packing unit:
12/240 cardboard

Size:
8, 9, 10, 11

TEKSON MASTER

The long-cuff MIG Welding Gloves crafted from cow split leather provide superior protection even in the most demanding environments. Featuring a full-leather palm and a thermal lining, they offer exceptional resistance to high heat and molten metal splashes. Kevlar® stitching with reinforced welting ensures maximum durability and seam integrity under extreme conditions.

EN ISO 21420:2020; CAT II; EN 388:2019 3143X; EN 407:2020 412X4X; EN 12477:2001+A1:2005 TYPE A

Packing unit:
10/60 cardboard

Size:
10

TEKSON DURABLE

Leather palm gloves made from the cow-split leather. Finished with a rigid, rubber, durable cuff. The seamless one-piece leather palm significantly enhances durability and abrasion resistance. The glove has an absorbent lining on the inside.

EN ISO 21420:2020; CAT II; EN 388:2019 4243X

Packing unit:
12/60 cardboard

Size:
10

TEKSON PROWELD

TIG welding gloves made from high-quality full-grain goat leather on the palm and split cowhide leather forming the cuff. The gloves are stitched with durable Kevlar threads, which increases their resistance to damage. They protect the hands and part of the forearm. The traditional design with a sewn-in thumb ensures a secure grip, and precise control during welding.

EN ISO 21420:2020; CAT II; EN 388:2019 2122X; EN 407:2020 411X4X; EN 12477:2001+A1:2005 TYPE B

Packing unit:
10/60 cardboard

Size:
10
